

## FUELING GUIDE

- ONLY FILL ONE TANK AT A TIME (only remove lids when ready to fill)
- DO NOT TOTAL FILL TANKS ( half a tank is sufficient for most sailing sessions with prolonged sessions check at intervals )
- ALWAYS PLACE TANK IN DRIP TRAY ( this will catch any spills )
- USE PETROL FILLER (not only does this avoid spills it also removes any debris that may be present )
- SAFETY EQUIPMENT IS FOR YOUR USE. ( gloves and goggles in labelled container )
- IN THE UNLIKELY EVENT OF A SPILL. CLOSE ALL OPEN TANKS THEN DRAIN THE TRAY VIA THE PETROL FILLER INTO THE GREEN TANK. ( this is checked regularly and disposed of )
- RETURN ALL EQUIPMENT TO FUEL STORE (report any missing damaged items )
- ENSURE FUEL STORE IS LOCKED IMMEDIATELY AFTER USE.
